in trade

(2) Notwithstanding the provisions of subsection (1), the Commissioner may, where he is satisfied that in any area of the United Republic insufficient staff or facilities exist for the testing of weights, measures, weighing or measuring instruments in accordance with the provisions of this Act, in writing in such form as may be prescribed and on such term, and subject to such conditions as he may think fit, authorize any person in such area to use or have in his possession for use in trade any weight, measure, weighing or measuring instrument which is not stamped with the prescribed verification mark for a period not exceeding six months or until such weight, measure, weighing or measuring instrument is verified in accordance with the provision of this Act, whenever is the less.

**36.** Any person who uses or has in his possession for use in trade, or hires out, permits or condones the use for trade of any weight, measure, weighing or measuring instrument which is false or unjust, shall be guilty of an offence, and any such instrument shall be liable to be forfeited.

Use of  
false or  
unjust  
instrument

**37.** Any person who willfully or knowingly makes or sets or causes to be made or sold, any false or unjust weight, measure, weighing or measuring instrument, shall be guilty of an offence.

Making or  
selling  
unjust  
weights,  
measures  
etc

**38.**-(1) Any person who uses, exposes or has in his possession for sale any weight, measure, weighing or measuring instrument which does not bear a valid verification stamp of a date not earlier than one year previous to such use, sale or exposure or possession for sale, shall be guilty of an offence:

Sale of  
unstamped  
instrument

Provided that this subsection shall not apply to weighing or measuring instrument which when made, were not intended or designed for use for trade and which were permanently and clearly marked on a conspicuous part thereon with the words "NOT FOR TRADE USE".

(2) Any weight, measure, weighing or measuring instrument made or sold in contravention of the provisions of this section shall be liable to be forfeited.

- Fraud in use of weight, measure, etc,
- 39.** Where fraud is knowingly committed in the use of a weight, weighing or measuring instrument, the person committing the fraud and every person who is a part to the fraud is guilty of an offence and in addition to any penalty the court imposes, the weight, measure, weighing or measuring instrument shall be liable to be forfeited.
- Prohibition assizers, etc in the Performance of their duties
- 40.** A person who-
- (a) assaults, resists, hinders or obstructs an assizer entering any place mentioned in section 48; or
  - (b) hinders or obstructs an assizer in the performance of his duties under this Act; or
  - (c) fails to comply with any request made by an assizer in the performance of his duties under, this Act; or
  - (d) bribes or attempts to bribe an assizer in connection with any matter arising from the exercise or performance of his duties under this Act; or
  - (e) being an assizer, accepts or attempts to solicit any bribe in connection with any matter arising in the performance of his duties under this Act; or
  - (f) uses indecent, abusive or insulting language to an assizer in the exercise of his duties under this Act,
- shall, be guilty of an offence.
- Prohibition of giving short weight, measure or number
- 41.** Any person who-
- (a) in selling any article by weight, measure or number delivers or causes to be delivered to the purchaser a less weight measure or number, as the case may be, than is purported to be sold; or
  - (b) in trade dealing by means of words, writing or conduct makes any false representation as to the number, gauge, weight, measure or quantity of any goods or things,
- shall be guilty of an offence.
- 42.**(1) Any person who by means of words, description or other indication, direct or indirect, makes any false declaration or statement or misleads any person as to the true weight, measure, gauge, class or grade of any article sold by him, shall be guilty of an offence.
- (2) Where an article is purchased by weight or measure the weight or measure of it is determined by the purchaser at or before the time of sale and the purchaser by means of words, description or other indication, direct or indirect, makes to the seller or his agent

a, false declaration or statement or, misleads the seller or his agent to the true: weight or measure of the article the purchaser" shall be guilty of an Offence.

**43.** Any person who sells or exposes for sale by any denomination of weight or measure other than the denominations Of Weight measure authorized by section 3 shall be guilty of an offence.

sales by unauthorized denomination

**44.** Any person who attempts to commit or who aids or abets an Offence against this Act shall, himself be guilty of the same offence.

Attempts and aiding or abetting

**45.**-(1) Any person who contravenes the provisions of this Act or regulation made tinder this Act shall be guilty Of an offence and Shall be liable on conviction in the case of a first offence to a fine not exceeding ten thousand shillings or to imprisonment for a term not exceeding three years, or to both such tine and imprison. ment; and in the case of a second or subsequent offence to a fine not exceeding twenty thousand shillings or to Imprisonment for a term not exceeding seven years or to both such fine and imprisonment.

General Penalty

(2) Where any person is convicted of any offence against this Act and the court by which he is convicted is of the opinion that Such offence was committed with intent to defraud, such person shall no I able in addition to or m lieu Of any, penalty to imprisonment for a term not exceeding three years.

**46.**-(1) The Commissioner or Assistant Commissioner may, where he is satisfied that any person has committed an offence under sections 22 (2). 26 (1) (a), 34 (J), (2). 36, 41 and 42 or under any regulations made under this Act, by order, compound such offence by requiring such person to make payment of a sum money, except that-

power to compounds offences

- (a) such sum of money shall not be less than five hundred shillings
- (b) the Commissioner or Assistant Commissioner shall give to the Person from whom he receives such sum of money, a receipt;
- (c) the Commissioner or Assistant Commissioner may- ask the court to forfeit any weight or measure or weighing or measuring instrument or other item for which the offence was committed as directed by or under this Act or any regulations made under this AM

(2) Where an offence is compounded with the provi. sion of subsection (1) and any proceedings are brought against the offender for 04-, same offence, it shall be a good defence for such offender to, prove to the satisfaction of the court that the offence with which he is charged has been compounded under section (1).

(3) Where any person is aggrieved by any order made under subsection (1), he may. within thirty days of such order being made, appeal against such order to a higher court and the Provision of

Part X of the Criminal Procedure code shall apply with the necessary changes, to every such appeal as if it were an appeal against a sentence passed by a district court in the exercise of its original jurisdiction.

## PART IX

### MISCELLANEOUS AND SUPPLEMENTARY PROVISIONS

Evidence of  
possession

**47.** Where any weight, measure, weighing or measuring instrument is found-

- (a) in the possession of a person carrying on trade; or
- (b) on the premises used for trade, of any person-
  - (i) whether or not such premises are a building or in the open air; or
  - (ii) whether or not such premises are open or enclosed,

that person shall be deemed for the purposes of this Act until the contrary is proved, to have such weight, measure, weighing or measuring instrument in his possession for use for the purposes of trade.

Power of  
possession

**48.**-(1) An assizer, may at all reasonable times-

- (a) enter into premises where he has reasonable cause to believe there is any weight, measure, weighing or measuring instrument which is in use for trade and may inspect such weight, measure, weighing or measuring instrument or part of such equipment which he has reasonable cause to believe is used contrary to the provisions of this Act;
- (b) seize and detain any weight, measure, weighing or measuring instrument or part of such equipment which he has reasonable cause to believe is used contrary to the provisions of this Act;
- (c) enter any premises in which he has reasonable cause to believe any goods are being sold or kept for sale, delivery and may inspect and weigh or measure any of such goods;
- (d) order any person delivering any goods to stop and may inspect and weigh or measure such goods;
- (e) for the purposes of paragraph (a) and (b) use any verified or re-verified instrument, weight or measure available at the premises where such goods are being inspected;
- (f) order the seller or purchaser of any goods to produce for inspection, and if he thinks it necessary, seize and detain any invoice, delivery note or other record kept by such seller or purchaser;
- (g) order any person mentioned in subsection (d) to-
  - (i) provide sufficient labour for handling and weighing of any goods under this section;

(d) give his name and address or his employers' name and address, if any.

(2) Any person who fails to comply with any order made in terms of this section shall be guilty of an offence.

(3) When exercising any powers conferred by this section, an assizer shall, produce a written authority from the Commissioner.

**49.** A document purporting to be signed by an assizer and certifying that a weighing or measuring instrument specified therein was inspected or examined and compared with the standard by him on a specified date and the finding of his examination or inspection shall be received in any court on production by any person and without further proof as *prima facie* evidence of the facts therein stated.

Judicial  
notice of  
documents

**50.** All weights, measures, weighing or measuring instruments forfeited under this Act shall be dismantled and the material thereof may be sold or otherwise disposed of as the court may direct.

Forfeiture

**51.**-(1) Whenever any manager, agent or employee of any person (herein referred to as principal) does or omits to do an act which could be an offence under this Act for such principal to do or omit to do, then, unless notice is given to the Commissioner that all reasonable steps were taken by the principal to prevent that act or omission of the kind in question, the principal shall be presumed himself to have done or omitted to do that act and, be liable to be convicted and sentenced in respect thereof.

Acts or  
omission  
managers  
agents or  
employees

(2) Whenever any manager, agent or employee of a principal does or omits to do any act which would be an offence under this Act to do or omit to do, he shall be liable to be convicted and sentenced in respect thereof as if he were the principal.

**52.**-(1) In any proceedings under this Act in which it is necessary in order to establish the charge against a person to prove that a notice or any other means, under section 19 (1) in respect of any weighing or measuring instrument, has been complied with, such instrument, shall be presumed, unless the contrary is proved, at all relevant times to have been used in trade by that person in the area to which the notice in question relates.

Burden of  
proof

(2) Where any goods are found on any premises which are used by any person for trade those goods shall, unless the contrary is proved, be deemed, for the purpose of this Act, to be in or on that place or vehicle for sale.

**53.** No proceedings or conviction under this Act shall affect any right or remedy under any other written law.

Saving of  
civil  
remedies

Regulations

**54.**-(1) The Minister may make regulations prescribing all matters that by this Act are required or permitted to be prescribed or are necessary or convenient to be prescribed for carrying out or giving effect to this Act, including, in particular provisions for, or with respect to-

- (a) the exemption in whole or part from the provisions specified in the regulations;
- (b) the procedure for examination or verification or stamping of weights, measures, weighing or measuring instrument, including the prohibition of stamping in cases when the nature, denomination, materials or principle of construction, of the weight, measure, weighing or measuring instrument appears likely to facilitate the perpetration of fraud;
- (c) the general specifications for instruments suitable for use for trade including prohibition of approved patterns that are unsuitable for further use in trade;
- (d) the manner of identification of any instrument by its approved pattern;
- (e) the manner or marking of any instrument suitable for use in trade
- (f) the test to be applied for the purpose of ascertaining the accuracy and efficiency of weights, measures or measuring instruments;
- (g) the limits of error, to be allowed verification and tolerated either generally or with respect to any trade or goods;
- (h) the fees that may be demanded by assizers for examining, verifying or stamping with a stamp of verification on any weight, measure, weighing or measuring instrument
- (G) the manner in which the value expressed in terms of any weight or measure other than in terms of standard weight or measure may be converted;
- (k) the enabling of assizers to carry out their duties under this Act; and prohibiting any person while so employed by the Weights and Measures Bureau from deriving any personal profits from adjusting, buying, selling, repairing, overhauling or installing any weights, measures, weighing or measuring instruments;
- (i) the purpose for which particular types of weighing or measuring instrument may be used for purpose of trade;
- (m) the manner of erecting, or using weights, measures. measures of capacity , weighing or measuring instrument used-for purposes of trade;

- (n) the circumstances in which, conditions under which and manner in which stamp or marks placed on weights, measures weighing or measuring instrument may be obliterated or defaced;
  - (o) the registration of public weigh-bridges and their weighmen;
  - (p) the procedure to be followed before issuing a certificate for pattern approval;
  - (q) the manner or quantities in which pre-packed goods, *food* stuffs may be packed; or sold in the market. or shops;
  - (r) the system of regulating and authorizing persons proposing, to engage themselves in the repairing, overhauling and installation of any weights, measures, weighing or measuring instruments and the fee to be charged for such registration, examination or authorization;
  - (s) the manner under which weights or measures, weighing or measuring instruments used in industries may be checked and stamped;
  - (t) the specifications, forms, and manner in which verification stamps, rejection stamps, date stamps and other forms of stamps may be made, used and maintained by the assizer;
  - (u) the specifications of standard equipment necessary to carry out the provisions of this Act; and the manner in which standard equipment shall be used and verified by the assizer;
  - (v) the exemption from the provisions of this Act to any contract made or effected with a view to the exportation of any goods from the United Republic of Tanzania;
  - (w) the period of the validity of verification stamps on various types of weighing or measuring instrument;
  - (x) prescribing the manner in which indications of weights or measures shall be marked on pre-packed goods required by the provisions of. this Act to be so marked;
  - (y) making additions to or removals from or otherwise vary the items contained in the Tenth, Eleventh and Twelfth Schedules to this Act;
- W prescribing the permitted limits of error in the weight or measure of any goods specified in the Tenth, Eleventh and Twelfth Schedules-
- (aa) requiring all or any weights and measures to be constructed with distinctive shape or appearance;

- (ab) coffering .-, upon assizer or upon a particular assizer or assizers any of the powers and duties which are by this Act conferred or imposed upon the Commissioner;
- (ac) prescribing anything that is by this Act authorized- or required to be prescribed generally for better carrying into effect any of the purposes of this Act.

(2) Regulations made under this section may fix penalties for the breach of such regulations not exceeding the penalties contained in section 45 of this Act.

Repeal and savings

**55.**-(1) The following enactments are repealed

- (a) The Weights and Measures Ordinance, 1960;
  - (b) The Sale of Goods (Weights and Measures) Ordinance, 1960;
  - (c) The Weights and Measures (Metric System) Act, 1968; and
  - (d) The Metric System (Amendment of Written Laws) Act, 1969.
- (2) Notwithstanding the provisions of subsection (1) of this section.
- (a) where, prior to the date upon which this Act comes into operation, any weight or measure has been stamped by an inspector with a verification mark under the provisions of the Weights and Measures Ordinance hereby repealed, such weight or measure as the case may be, shall be stamped with a prescribed verification mark for the purposes of this Act; and
  - (b) any standards procured or provided by the Minister under the provisions of the Weights and Measures Ordinance hereby repealed, being standards which the Minister is authorized or required to procure or provide under the provisions of this Act, shall be deemed to have been procured and verified or provided and authenticated, as the case may be, under the provisions of this Act;
  - (c) any subsidiary legislation made under any of the enactments repealed by this Act and in force immediately prior to the coming into operation of this Act shall, so far as it is not inconsistent with the provisions of this Act, continue in force as if made under this Act;
  - (d) any orders, directions, appointments and other acts lawfully made or done under a provision of the enactments repealed and, in force immediately before the commencement of this Act shall be deemed to have been made or done under the corresponding provision of this Act and shall continue to have effect accordingly.

## FIRST SCHEDULE

## BASE UNIT OF SI

The base units of the SI are defined as follows:—

Physical Quantity	Name of unit	Unit symbol	Definition
1. Length ...	... metre ...	... m ...	the unit for the measurement of length equal to 1 650 763.73 wavelengths in vacuum of the radiation corresponding to the transition between the levels $2p^{10}$ and $5d_5$ of the krypton-86 atom.
2. mass ...	... kilogram ...	... kg ...	the unit for the measurement of mass, being a mass of the international prototype of the kilogram established in the year 1889 by the First General Conference and deposited at the International Bureau.
3. time ...	... second ...	... s ...	the unit for the measurement of time, being the duration of 9 192 631 770 periods of the radiation corresponding to transition between the two hyperfine levels of the ground state of caesium-133 atom.
4. electric current	ampere ...	... A ...	the unit for the measurement of electric current, being constant current, that, if maintained in two straight parallel conductors of infinite length, of negligible circular cross-section and placed one metre apart in vacuum, would produce between these conductors a force equal to $2 \times 10^{-7}$ newton per metre of length.
5. thermodynamic... temperature	kelvin	... K ...	the unit for the measurement of thermodynamic temperature, being the fraction $1/273.16$ of the thermodynamic temperature of the triple point of water.
6. luminous intensity	... candela	... cd ...	is the unit of measurement of luminous intensity, in a given direction of a source that emits monochromatic radiation of frequency $540 \times 10^{12}$ Hz and of which radiant intensity in that direction is $1/683$ watt per steradian.

FIRST SCHEDULE—(contd.)

<i>Physical Quantity</i>	<i>Name of unit</i>	<i>Unit symbol</i>	<i>Definition</i>
7. amount of substance	... mole ...	... mol ...	the unit for the measurement of the amount of substance of a system which contains as many elementary entities as there are atoms in 0.012 kilogram of carbon 12.

*Note:* When the mole is used, the elementary entities must be specified and these may be atoms, molecules, ions, electrons, other particles or specified groups of such particles.

SECOND SCHEDULE

SUPPLEMENTARY UNITS OF SI

The supplementary units of the SI are defined as follows:—

<i>Physical Quantity</i>	<i>Name of unit</i>	<i>Unit symbol</i>	<i>Definition</i>
1. Plane angle	... radian	... rad ...	the unit for the measurement of plane angle, being the angle with its vertex at the centre of a circle and subtended by an arc of the circle that is equal in length to its radius.
2. solid angle	... steradian	... sr ...	the unit for the measurement of solid angle being the angle with its vertex at the centre of a sphere and subtended by an area on the spherical surface equal to that of a square with sides equal in length to the radius.

THIRD SCHEDULE

DERIVED UNITS OF SI

A derived unit means a unit derived only from the base units set out and defined in the First Schedule or the supplementary units set out and defined in the Second Schedule or both by the process of multiplication or division or both without the introduction of any co-efficients, unity, excepted. The derived units of SI are defined as follows:—

<i>Physical Quantity</i>	<i>Name of unit</i>	<i>Unit symbol</i>
area ... ..	... square metre ... ..	m <sup>2</sup>
volume or capacity ... ..	... cubic metre ... ..	m <sup>3</sup>
speed ... ..	... metre per second ... ..	m/s or m.s <sup>-1</sup>

SPECIAL OR PERMITTED UNITS OF SI

These are internationally—agreed units which are deviations from strict SI. They are permitted either because of their practical importance or because of their use in specialised scientific fields.

The units may be used together with SI units and their multiples and sub-multiples.

The names of the permitted units, the physical quantities they represent, their unit symbols and definitions are listed hereunder:—

Physical Quantity	Name of Unit	Unit Symbol	Definition
I. time ... ..	minute ... ..	min ... ..	1 min = 60 s
	hour ... ..	h ... ..	1 h = 60 min
	day ... ..	d ... ..	1 d = 24 h
	week ... ..	wk ... ..	1 wk = 7 d
	Calendar year ... ..	yr ... ..	1 yr = 365 d or 366 d (leap year)
II. plane angle ... ..	degree ... ..	° ... ..	$1^\circ = (\pi/180)$ radian
	minute ... ..	' ... ..	$1' = (1/60)^\circ$
	second ... ..	" ... ..	$1'' = (1/60)'$
III. volume or capacity ... ..	litre ... ..	l ... ..	1 l = 1 dm <sup>3</sup>
IV. mass ... ..	tonne ... ..	t ... ..	1 t = 1 000 kg
V. pressure ... ..	bar ... ..	bar ... ..	1 bar = 100 000 Pa.
	standard atmosphere ... ..	atm ... ..	1 atm = 101 325 Pa.
VI. area ... ..	are ... ..	a ... ..	1 are = 100 m <sup>2</sup>
	hectare ... ..	ha ... ..	1 hectare = 10 000 m <sup>2</sup>

## DEFINITIONS OF UNITS OF MEASUREMENT

## PART I

*Measurement of Length*

kilometre	...	...	...	...	... = 1 000 metres.
metre	...	...	...	...	... = as defined in the First Schedule
decimetre	...	...	...	...	... = 1/10 metre.
centimetre	...	...	...	...	... = 1/100 metre.
millimetre	...	...	...	...	... = 1/1 000 metre.

## PART II

*Measurement of Area*

hectare	...	...	...	...	... = 100 are
decare	...	...	...	...	... = 10 are.
are	...	...	...	...	... = 100 square metres.
square metre	...	...	...	...	... = A superficial area equal to that of a square each side of which measures one metre.
square decimetre	...	...	...	...	... = 1/100 square metre.
square centimetre	...	...	...	...	... = 1/100 square decimetre.
square millimetre	...	...	...	...	... = 1/100 square centimetre.

## PART III

*Measurement of Volume*

cubic metre	...	...	...	...	... = A volume equal to that of a cube each edge of which measures one metre.
cubic decimetre	...	...	...	...	... = 1/1 000 cubic metre.
cubic centimetre	...	...	...	...	... = 1/1 000 decimetre.

## PART IV

*Measurement of Capacity*

hectolitre	...	...	...	...	... = 100 litres
litre	...	...	...	...	... = The capacity equal to that of a cube each edge of which measures 1 decimetre.
decilitre	...	...	...	...	... = 1/10 litre
centilitre	...	...	...	...	... = 1/100 litre
millilitre	...	...	...	...	... = 1/1 000 litre
